

Socorro Big Animal Trip

Aggressor Liveaboard

9 Nights March 25 - April 3, 2020

This trip is timed to offer the best opportunity to see hammerhead & silky sharks, humpback whales, whale sharks, dolphins and large schools of fish. Of course, many giant mantas will also be present. Sail and dive in comfort on the incredible Socorro Aggressor. A tiny isolated rock outcropping rises up from the depths. About 300 feet wide and just over 100 feet above the surface of the ocean, Roca Partida is a remote and exposed rock in the middle of the ocean. There is no other land mass within 70 miles. Below the surface, the rock is a magnet to pelagic marine life. We are in the middle of the Revillagigedos Archipelago about 300 miles southwest of Cabo San Lucas.

\$3,795.00 per person / dbl occ.

Includes

- One-night hotel and dinner in Cabo San Lucas (Jose del Cabo)
- 8 Nights, Deluxe Stateroom, private head and shower
